

GICLÉES

PRINTING ON DEMAND

Giclées are created through a printing method in which an image is first scanned and then digitally enhanced to precisely match the original art. This computerized image is then sent to a high-resolution inkjet printer, which reproduces the image by spraying millions of microscopic droplets of ink onto various substrates to create a print which is extremely faithful to the original.

The media used is a high quality photographic paper, archival acid-free 100% cotton paper or canvas. The superior quality of these giclée prints is comparable to the original art but is substantially more affordable.

EUROGRAPHICS GICLÉES are printed on:

- 1. PHOTO PAPER**.....**CODE 1700P**
Semi-gloss photographic paper
- 2. ARCHIVAL PAPER**.....**CODE 1700**
Acid-free, matte 100% cotton fine art paper
- 3. CANVAS**.....**CODE 1750**
100% cotton art canvas with protective UV filtering varnish

HOW TO ORDER YOUR GICLÉE

1. Check Giclée Item Number & Category

Danny Burk - Yosemite Valley View

Giclée 61942 ①
